

Parakeet

Lifespan: 6-8 years

Feed: Parakeet seed

Description: Regular parakeets are always solid blue/white-faced with turtle markings, or solid green/yellow-faced with turtle markings.

Overview: Parakeets are a great addition to any family with children of any age. Parakeets are smart and affectionate. They can learn to talk, but this is not as common as in parrots. Parakeets are also easy to train. Parakeets should have a large cage in which to allow movement.
